Rio Grande

SUMMARY

After 13 years of working as a nursing professional, spending the last 3 years as the Supervisor of the nursing department at the Rio Grande Regional Hospital, I decided to seek new horizons, finding myself in the IT world. Passionate about coding and development, my entry into this world was challenging, but it only fueled my determination and passion for technological creation. My experience in the bootcamp from which I graduated culminated in a group project with six incredible people from another country. Additionally, I had the privilege of guiding other students as a TA (Teacher Assistant), helping them unlock their potential and develop skills. My dedication, combined with my ability to work in a team and my passion for continuous learning, make me an ideal candidate for exciting technological challenges and innovative projects.

EXPERIENCE

Backend Developer

No Country
07/2024 - Present Provincia de Tierra del Fuego, Argentina
Started new MVP in the work simulation, integrating the Backend position.

Backend Developer

No Country
05/2024 - Present Argentina
Excited to continue growing and contributing to the world of technological development, today together with various professionals (UX/UI designers, frontend and backend developers) I am part of the backend team in the No Country program, for the development of an MVP.
